

WISCONSIN | ePDMP

The Wisconsin Prescription Drug Monitoring Program

Law Enforcement Overview

What is a PDMP?

Pharmacies and other dispensers
of monitored prescription drugs submit data

Data is added to a statewide database

1) Authorized users access PDMP data
to verify prescription information

Wisconsin's PDMP

Department of Safety and Professional Services

- Credentialing and Licensing
- Controlled Substance Board
- Related Boards: Medical Examining Board, Pharmacy Board, Board of Nursing, Optometry, Podiatry
- Division of Legal Services and Compliance

WI ePDMP

- Enhanced system launched January 2017
- Over 2,000 dispenser submitters
- Over 46,000 healthcare users
- Data for controlled substances in schedule II-V dispensed in Wisconsin
- Over 9 million records submitted each year

WI ePDMP Components

•Clinical Healthcare Tool

- Patient Prescription Histories
- Prescribing, Treatment, Dispensing Decision Support

Interdisciplinary Communication Tool

- Law Enforcement Alerts
- Law Enforcement and Medical Examiner Investigations

•Prescribing Practice Assessment Tool

- Prescriber Metrics Report
- Prescriber Monitoring of DEA # for fraud
- Medical Coordinator Access

•Public Health Tool

- Interactive Statistics Dashboard
- Dispensing Data Trends (State- and County- Level)

H.O.P.E. Agenda Legislation

2015 Act

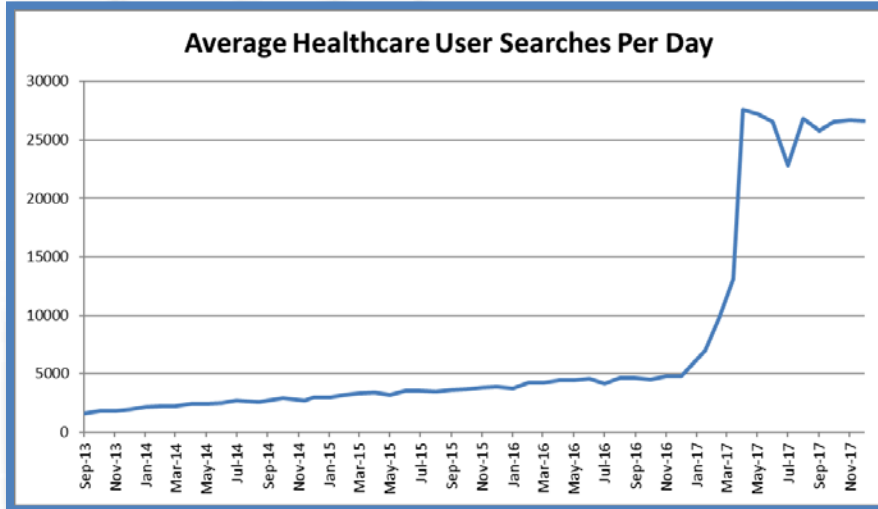

266

*Effective April
2017*

- Dispensers required to submit to the PDMP by the end of the next business day (previously 7 days)
- Prescribers required to review PDMP prior to prescribing a monitored prescription drug
- Expanded access to PDMP

PDMP Utilization by Healthcare Users

Daily Patient Queries

December 2016: 4,800 queries
 August 20, 2018: 32,800 queries

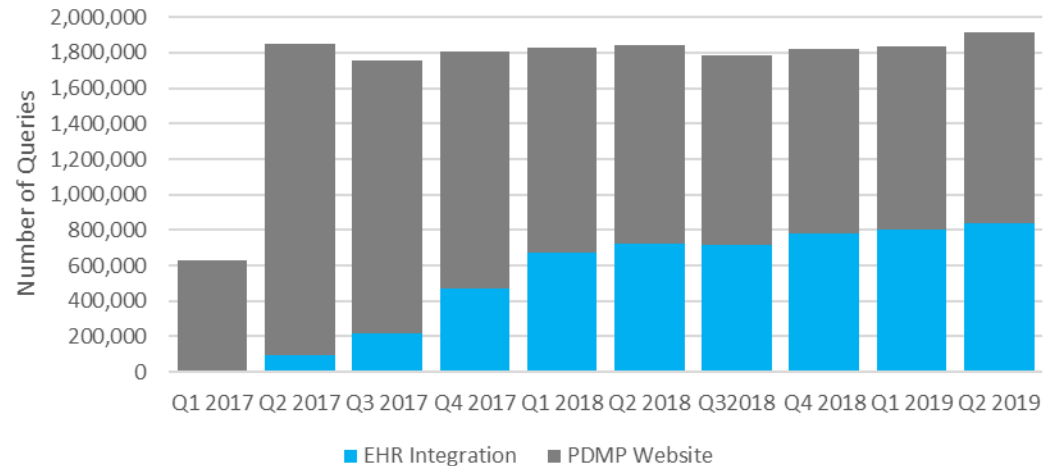

Monthly Patient Queries

January 2017: 101,000 queries
 October 2018: 641,400 queries

EHR Single Sign On

- 16 health systems
- Over 40% monthly queries from SSO

H.O.P.E. Agenda Legislation

Law Enforcement

- **Act 266 (effective April 2017):**
Law enforcement and prosecutorial units allowed to request PDMP data without a court order
 - **Act 268 (effective March 2016):**
Law enforcement agencies shall report to the PDMP information about specific events
- The PDMP shall disseminate the information from law enforcement agencies to relevant PDMP users

Law Enforcement PDMP Access

Request for PDMP Report

- Released after review and approval by DSPS staff (2 – 3 business days)
- Records about schedule II-V controlled substance prescriptions dispensed in Wisconsin
- Information should correspond to original records kept by prescribers and dispensers
- Potentially useful information to help guide investigations of drug diversion or overdose
- Not “evidence” and should not be used in isolation to make any determinations about a patient, prescriber, or dispenser

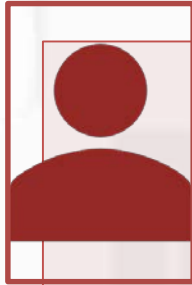

Investigative Tool

- WI ePDMP is a compilation of data submitted to it by dispensers, and **information in the PDMP should correspond to original records kept by prescribers and dispensers.**
- CSB and DSPS make no claims, promises, or guarantees about the accuracy, completeness, or adequacy of the information stored in the PDMP and expressly disclaim liability for errors and omissions in the information.

Types Of Reports

Individual/Patient

Name (alias)
Date of Birth

Household

Address

Prescriber

DEA Number

Law Enforcement Attestation

Required Documentation for Each Request

Agency Letterhead (Signed, .pdf)

- Name, DOB of subject, or
- Household address, or
- Name, DEA# of prescriber

Date range for PDMP data requested

Explanation of how the information requested is reasonably related to an active and specific investigation, citations of violations being investigated, case number

- Specific justification required for household

The ePDMP is a new tool to help combat the ongoing prescription drug abuse epidemic in Wisconsin. By providing valuable information about controlled substance prescriptions that are dispensed in the state, it aids healthcare professionals in their prescribing and dispensing decisions. The ePDMP also fosters the ability of pharmacies, healthcare professionals, law enforcement agencies, and public health officials to work together to reduce the misuse, abuse, and diversion of prescribed controlled substance medications.

Prescriber Led

Data Driven Alerts

WI ePDMP uses sophisticated data analytics to assess a patient's controlled substance prescription history

1. **Multiple Prescribers or Pharmacies**
5 or more in the last 90 days
2. **High Current Daily Dose of Opioids**
Exceeds 90 morphine milligram equivalent (MME)
3. **Concurrent Benzodiazepine and Opioid**
Active prescriptions for both drugs
4. **Long-Term Opioid Therapy with Multiple Prescribers**
1 opioid or more from 2 or more prescribers for more than 90 days
5. **Multiple Same Day Prescriptions**
Same controlled substance drug from multiple prescribers or pharmacies on the same day
6. **Early Refill**
Filled 2 or more days earlier than expected

Dispensing Data Inclusions/Exclusions

The WI ePDMP is not a comprehensive prescription drug database

It does includes:

- Controlled substances in Schedules II-V
- Dispensing Practitioners
- Veterinary dispensings filled by a pharmacy
- Mail order pharmacy dispensings
- Veterans Affairs pharmacies in WI

It Excludes

- Monitored drugs administered directly to a patient
- Monitored drugs dispensed at veterinarian clinic
- Dispensing by federally funded opioid treatment programs
- Diagnosis code

Accessing Bordering State PDMPs

WI Healthcare Prescribers can access PDMP data from bordering states within the WI PDMP.

Requesting Access to Other State PDMPs

Law Enforcement must contact the individual states to request PDMP access. It is not allowable for the WI PDMP to display interstate data to law enforcement users.

Law Enforcement Alerts

Duty to Report

- Suspected Violation of Controlled Substances Act
- Suspected Narcotic Related Death
- Suspected Opioid Related Overdose (Non-Fatal)
- Report of Stolen Controlled Substance Prescription

Law Enforcement User

Who should
have a
PDMP
account at

It is solely for approved users to perform legally authorized activities. Any other use is strictly prohibited. Inappropriate access or disclosure of information obtained from the ePDMP is a violation of state law, which may result in criminal, civil and administrative sanctions, including suspension or revocation of my access to the PDMP application, up to a \$25,000 fine and, up to nine months of imprisonment. Use of this site is monitored and may be audited for unauthorized use at any time.

Disclaimer The Controlled Substances Board and the Department of Safety and Professional Services make no claims, promises, or guarantees about the accuracy, completeness, or adequacy of the information stored in the PDMP and expressly disclaim liability for errors and omissions in the information.

Creating Law Enforcement Alerts

Submit Alert | Alert History | Patient Query | Prescriber Query | Household Query | Retrieve

Submit an Alert

Wisconsin Act 268, which became effective on March 18, 2016, creates a duty for law enforcement agencies to submit information to the Monitoring Program (PDMP) in four specific situations. The situations described in the law are when a law enforcement officer:

1. Reasonably suspects that a violation of the **Controlled Substances Act** involving a monitored prescribed drug is occurring or has occurred.
2. Believes someone is undergoing or has immediately prior experienced an opioid-related drug overdose.
3. Believes someone died as a result of using a narcotic drug.
4. Receives a report of a stolen controlled substance prescription.

When any of these situations occur, the law enforcement officer is required to submit an alert to PDMP. The alert will be tied to the patient and the healthcare professional(s) notified. All information submitted in an alert is viewable by users of the WI ePDMP. To ensure no undue harm to the person affected by the event or any other individual identified in the alert, information should be short, objective, and fact-based.

Alert Detail

1. Person Affected
(Patient Record to associate alert)
2. Date of Birth
3. Type of Event (dropdown)
4. Date of Event
5. Additional Detail (comments, case number)
6. Prescription Detail (if available)

Alert Type: - Select -

- Select -
- Suspected Violation of the Controlled Substances Act involving Rx Drugs
- Suspected Non-Fatal Opioid-Related Drug Overdose
- Suspected Fatal Narcotic Overdose
- Report of a Stolen Controlled Substance Prescription

Date of Event: MM/DD/YYYY

First Name: [] Last Name: [] Date: MM/DD/YYYY

Prescription Label Information (if available): []

Additional Information – Names listed below, if different than Person Affected above, may require creation of a separate alert.

Additional Information – Everything typed here is viewable by other WI ePDMP users. Comments should be short, objective, and fact-based.

Welcome to the Wisconsin Enhanced Prescription Drug Monitoring Program Statistics Dashboard

The WI ePDMP Statistics Dashboard provides interactive data visualizations about the controlled substance prescriptions dispensed in Wisconsin, the law enforcement reports submitted to the WI ePDMP, and the use of the WI ePDMP by healthcare professionals and others. Click on the icons above to interact with data from the WI ePDMP. Below, you will find a snapshot of some of the data in the WI ePDMP.

In December 2017, the WI ePDMP recorded:

735,168

Controlled Substance Prescriptions Dispensed

572,666

Healthcare Professional Patient Queries

(Includes Delegates)

143

Law Enforcement Reports Submitted

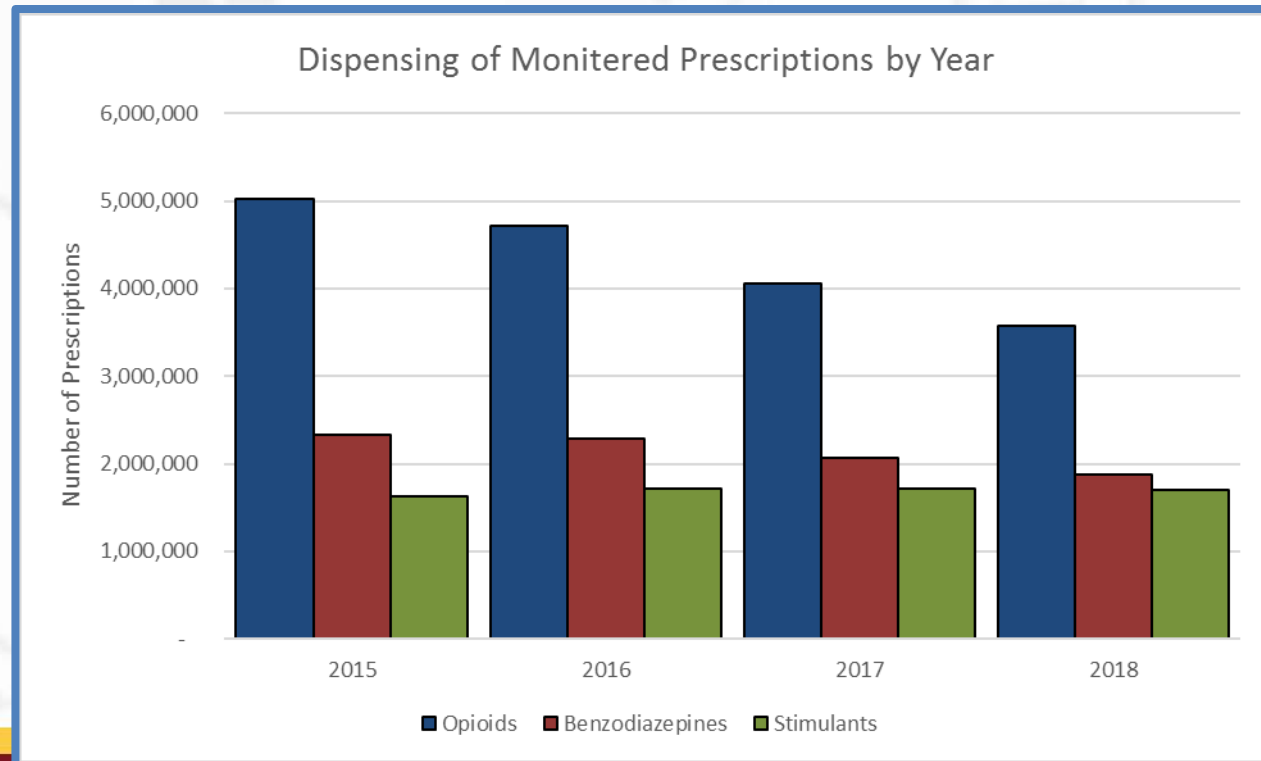

(Based on Date of Submission)

Dispensing Trends

2015-2018 Trend by Drug Class

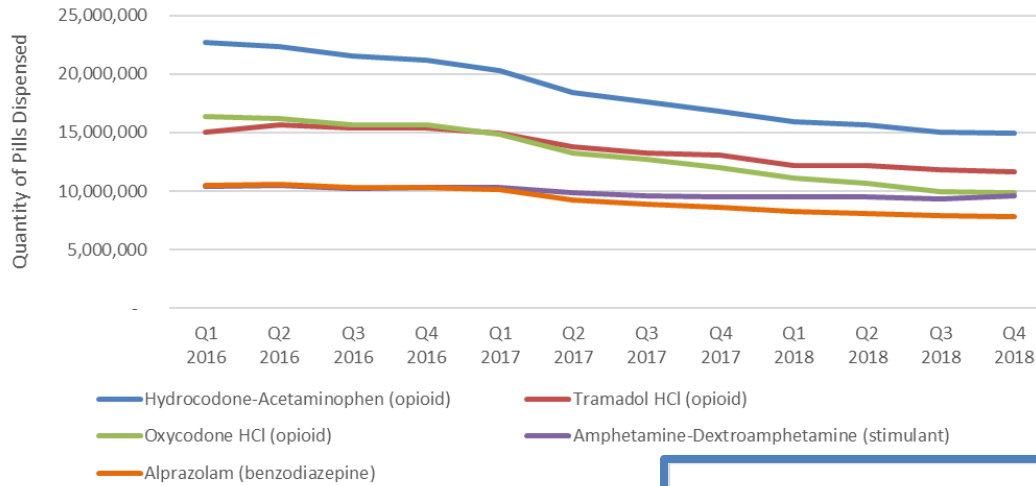

- Opioids: 29% decrease (1.5 million fewer prescriptions)
- Benzodiazepines: 19% decrease (445,000 fewer prescriptions)
- Stimulants: 6% increase (in 2016, then minimal change)

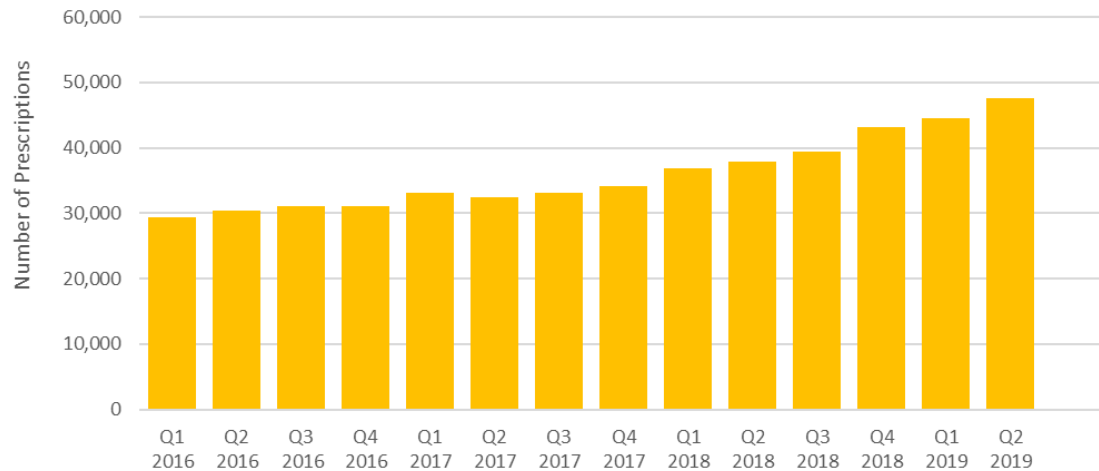

Dispensing Trends

Quarterly Dispensing by Pill Volume

Quarterly Pharmacy Dispensed
Buprenorphine HCl-Naloxone HCl Dihydrate
