About FHC RentReady: The Family Health Center of Marshfield, Inc. (FHC) RentReady program provides support to individuals who have been in recovery from substance use for at least six months and are ready to seek independent housing. Participants accepted into the program will receive budget and rental education, create documentation to share with a landlord, be connected with a peer support professional (recovery coach and/or peer specialist) for ongoing support, and receive assistance in securing a lease with a local landlord. Participants will pay their monthly rent beginning in the second month of their secured lease. Participants admitted to the program will be matched to a property that is no more than 40% of their monthly household income.
